REASONS FOR ALLOWANCE

1. Claims 1-23 allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art made of record fails to teach or fairly suggests in combination the steps of correlating data corresponding to a first one of the propagation paths of the received signal with a conjugate of a pilot channel sequence; repeating the correlation for other propagation paths of the received signal, wherein the other propagation paths correspond to a first set of propagation paths that also includes the first one of the propagation paths; coherently accumulating results corresponding to the correlation for the first set of propagation paths; calculating square-magnitudes of the coherently accumulated results corresponding to the first set of propagation paths; and comparing the calculated square-magnitudes of the coherently accumulated results corresponding to the first set of propagation paths to a threshold to identify first search results for the first set of propagation paths from the square-magnitudes of the first set of propagation paths that surpass the threshold, wherein the first search results include corresponding delays and gains for the first set of propagation paths.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
